

## STATE TROOPS ORDERED TO MARION, ILL.

SARTELL RESIGNS  
CITY FINANCE JOB,  
QUITS MARCH 1NO REASON STATED IN  
LETTER TO CITY MAN-  
AGER TRAXLER.LOOKS TO P. O. JOB  
Applicant for Postmasterhip,  
City Clerk Retires  
After 5 Years.

Ervin J. Sartell, city clerk of Janesville from 1920 to 1923 and city clerk-treasurer, has resigned his position Tuesday. He has been in the city for five years and has been a member of the city council for three years. He has been a member of the city council for three years and has been a member of the city council for three years.

Mr. Sartell was appointed to office as city clerk by the city council four years ago and was twice re-elected by the people by large majorities. In May, 1922, he was appointed acting city clerk-treasurer by the council and two weeks ago this appointment was made permanent by the city manager.

Mr. Sartell is a member of the Janesville Elks, secretary of Company "M," a musician in the Tower City and Masonic bands, and active in the Kiwanis club. He is an applicant for appointment as postmaster of Janesville.

ORLEANS OBSERVES  
DATE OF BATTLE109th Anniversary of Victory  
Over British Feted in  
Southern City.

New Orleans—The one hundred and ninth anniversary of the battle of New Orleans was observed here today with patriotic exercises at Jackson Square, where wreaths were placed on the statue of General Andrew Jackson and the United Daughters of 1776-1812.

Other exercises were held at the park where General Jackson's forces defeated the British army under General Blount. The day is a legal holiday in Louisiana and all banks, public buildings and commercial exchanges were closed.

CAVALRYMEN  
GUARD PRINCETokio—Cavalrymen with drawn  
swords guarded Prince Hirohito  
this morning when he went to  
the Toyok parade grounds to con-  
duct the annual military review of  
the imperial army.

In addition the grounds were  
heavily guarded, being surrounded  
with a squadron of police and  
gendarmes.

The precautions taken to protect  
the Prince Regent were the result  
of the recent attempt by a youthful  
socialist to slay the former while he  
was on his way to a meeting of the  
diet.

URGES POLICE TO  
BE BIG BROTHER  
TO 'KIDS' ON BEATChicago—The neighborhood patrol-  
man should be the big brother of all  
the boys on his beat, according to  
instructions issued by Morgan A.  
Collins, chief of police.

Talk and advice from an officer is  
worth more than arrest and in-  
carceration for minor violations, he  
said.

"Teach the boy the easiest and  
best way to live is to respect the  
rights of others and that running  
contrary to the laws of society al-  
ways ends in prison and disgrace,"  
the chief told a conference of of-  
ficers.

LEAVES EMPLOY OF  
CITY ON MARCH 1ERVIN J. SARTELL  
After four years' service as a city  
official of Janesville, City Clerk-  
Treasurer E. J. Sartell, headed in his  
resignation to the city manager last  
Monday to take effect March 1.ANOTHER KILLED  
IN CHICAGO LABOR  
WAR; 1 WOUNDEDChicago—A dispute over the re-  
cent election of Frank Buchanan,  
former congressman, as business  
agent of local number 1 of the Struc-  
ture Union, has resulted in the  
shooting of John Gilmore, and the  
probable mortal wounding of John  
Gunn, defeated candidate, Buchan-  
an and members of the union are in  
custody for questioning.

According to witnesses Gilmore  
was employed by Dunne as a body  
guard. He was shot from behind and  
is alleged to have fired one shot.  
Dunne was shot five times. At a  
hospital, where he was taken, he re-  
fused to discuss the shooting.

Buchanan served three terms in  
prison from 1910 to 1914 and was  
international president of the union.

VENIZELIS TO  
ACCEPT PLACE  
AS MINISTERLondon—Former Premier Veni-  
zelis of Greece has accepted the  
indisposition which he was  
seized during the initial session of  
the new assembly, and seems to be  
planning to become foreign minister  
in the new cabinet, says a dispatch  
from Athens today.

It is declared to have become optimistic  
regarding the achievements of  
unity within the nation, and to be  
highly satisfied with the conversa-  
tions he has so far had with the  
opposition leaders.

OBREGON PAYS  
HALF IN CASHWashington—A dispatch from  
amounting to one half of the total  
amount the Oregon government is  
to pay the United States for the war  
materials recently purchased here  
has been received. The remainder is  
payable within 30 days. Officials  
refuse to disclose the amount.ASK NEWS OF  
MISSIONARIESSt. Louis—The United Christian  
Missionary society (Christian church)  
probably will ask the state depart-  
ment to make inquiries as to the safety  
of Christian church missionaries  
at Batang, it was said at headquarters  
of the society here today.HOLD SCHOONER WITH  
BOOTLEG LIQUORGalveston, Tex.—The British aux-  
iliary schooner, Muriel B. Whittier,  
with approximately \$100,000 worth  
of liquor in her hold, was tied up  
at the waterfront here today, con-  
trolled by government guards armed  
with rifles, awaiting formal action  
by the authorities against the vessel.  
The schooner was seized Sunday afternoon  
in the Gulf off Galveston.GROWER GETS 22  
CENTS FOR TURKEY;  
CONSUMER PAYS 46New York—Otto Schulz of Little  
Rock, N. Y., is writing a long letter  
to William Shone of Menard, N. D.,  
who raised the turkey the Schulz  
family ate to celebrate the arrival of  
the New Year.

In stuffing the bird which cost  
her 46 cents a pound, Mrs. Schulz  
found notes from Mr. Shone.  
"Dear friends," it said, "I sold this  
turkey for 22 cents a pound. Please  
write me what you paid."

CHARGES MELLON  
WITH ATTEMPT TO  
"SANDBAG" BONUSNEW YORK DEMOCRAT IN  
HOT ARRAIGNMENT  
OF TAX PLAN."WOULD AID RICH"  
Tax Reduction and Bonus Both  
Possible, Assertion in  
Senate Speech.

Washington—President Cam-  
den's remarks regarding the bonus  
provisions of the Finance demonstra-  
tion program as disregarding the  
principle that the government  
should encourage investment of  
capital in business enterprises  
rather than in tax free securities.

Washington—Charging that Sec-  
retary Mellon had "attempted to  
sandbag the bonus, using a formi-  
dable weapon, the pocketbook of the  
nation," Senator Copeland, democrat,  
New York, told the senate today he  
did not consider tax reduction and  
the soldiers bonus "as related that  
one must die if the other live."

Pointing out that the treasury sec-  
retary had said that in the long run  
the surplus reduction which he has  
promised would bring an estimated  
increase in revenue of \$102,000,000,  
Senator Copeland proposed that this  
be used as the basis for the payment  
of the bonus.

His Bonus Plan  
Declaring in favor of all cash pay-  
ments to the service men at the rate  
of \$1.25 for each day of service,  
Senator Copeland said the total of  
\$1,464,777,262 could be retired in  
60 years with a payment of one  
hundred million dollars yearly, sev-  
enty-five millions in interest, and  
twenty-five millions in principal.

Should the additional revenue Mr.  
Mellon has promised not be realized,  
Senator Copeland said, the surplus  
would be restored, "because the bonus  
must be paid."

"The real purpose of the Mellon  
plan, of course, to reduce the sur-  
plus on the rich," Senator Copeland  
declared, "and the taxes are cut in  
half, from 50 to 25 percent. The  
rest of us, as usual under a republi-  
can administration, get only the crumbs."

"And so insist that Mr. Mellon  
on the big cut in surpluses, that he  
refuse to take anything less, re-  
fuses to compromise, he is threat-  
ening to withdraw his bill if the  
compromise is urged. If press  
reports can be relied upon, the pre-  
sident shares his views."

Plans Bonus Bill  
"Great business men with whom  
I have discussed the matter in New  
York, reluctantly admitting that the  
bonus must be paid, have urged me  
to get it out of the way in one  
lump. With this in mind I shall  
present in due time a bonus bill,  
providing for a dividend of 25 per-  
cent on the bonus."

Senator Copeland declared that if  
a bonus were paid in cash he would  
be sure to be opposed when it came  
to providing the funds for the legis-  
lation of tax exempt bonds. He declared  
it was time the federal government  
showed the country an example of the  
proper method of financing public  
projects.

COTTAGES AT  
LAKE ROBBEDSuperior—From \$2,000 to \$4,000  
in cash and goods were stolen from  
seven cottages at Lake Umbagog  
Sunday night, it was estimated by  
members of the Douglas county  
sheriff's office Monday.

Reports of the burglary were sent  
to Sheriff Wm. A. Hagreen, who  
George McKinnon, who found his  
cottage rifled when he visited it  
Monday morning.

Following a check up and the ob-  
taining of descriptions of the mis-  
sionaries, Sheriff Hagreen will be-  
gin a thorough investigation of case.  
Alvin Hildebrand, 21, was arrested by  
deputy Sheriff Silver and is being  
held at the city jail without charge,  
pending investigation by Robert E.  
Kenworthy, district attorney.

SENATOR WASN'T ON  
JOB WHEN BOK PLAN  
WAS PASSED, B'GOSHDes Moines—A local newspaper  
interviewed members of the Iowa  
legislature, in session at the state  
capitol here yesterday, on their at-  
titude toward the winning Bok peace  
plan.

"Senator," one legislator was asked,  
"what do you think of the Bok  
peace plan?"

"I don't know," the senator looked blank for a  
moment.

"Oh," he explained, "I wasn't here  
when they passed that."

JAP VESSEL  
IS OFF ROCKSPortland, Ore.—The Japanese  
freighter Hakko Maru, which was  
grounded on a sandy beach off Willapa  
harbor last night, got off under her  
own power early today, according to  
the dispatch received by the  
Federal Telegraph company here.BOOTLEG INSURANCE  
LATEST; SUSPICION  
HINDERS BUSINESSSan Luis Obispo, Calif.—Policies  
of the "Genevieve" insurance com-  
pany, protecting bootleggers from  
loss through prohibition officers  
raid, have been discovered at Al-  
amo Grande, near here, "constable C.  
Mahan reported. The shy bootlegger,  
not so trusting as he once was, how-  
ever, is reported to be suspicious that  
the insurance is one of the schemes  
of dry officers to get information.Rebels Evacuate  
Oil Industry HubDiscoverer of Klondike  
Gold Visits Frisco on  
Trail of Red-Head Girl

San Francisco—After 30 years  
in the frozen north, Bob Henderson,  
65, who claims the distinction  
of having discovered the first gold  
in the Klondike region that started  
the frantic rush of '97, is back  
in San Francisco, today, "still full  
of pep and ginger," as he put it,  
and with an eye peered for an  
"honest-to-goodness red headed  
girl with freckles as big as sun-  
spots." Henderson said that the  
only claim he had granted of seven  
he registered in the Klondike  
noted him more than \$300,-  
000.

ASSESSOR REFUSES  
TO GIVE UP BOOKSCommission May Take Legal  
Action in Redistricting  
Rumpus.

Madison—The redistricting of state  
tax assessors by the state tax com-  
mission has come back to the com-  
mission by refusal of William F.  
Hansse, assessor of the Thirty-third  
district under the former plan, to  
give up his office.

The state tax commission an-  
nounced today that although As-  
sessor Hansse has declined to turn  
over records to the new assessor  
under the redistricting plan, the  
work will not be paid and the work will  
be forwarded under the new assessor.  
Meanwhile, it is said, a conference  
will be held with the attorney gen-  
eral's department relative to the  
possibility of bringing court action to  
compel Hansse to relinquish the of-  
fice.

Hansse is located at Marinette.  
Recently the legal department de-  
clined to give an opinion to the dis-  
trict attorney at Marinette on the  
question of validity of the redistrict-  
ing of assessors by which nine  
assessors were dropped from the state  
role. Court proceedings to test  
legality of commission's action is  
now threatened.

LENROOT ASSAILS  
RUSS RECOGNITIONWould Mean Consulates in Every  
U. S. City, Spreading  
Propaganda.

Washington—If the United States  
should recognize Russia, the latter  
could put a consulate in every city  
in America, making it easy to  
spread propaganda, Senator  
Lenroot, republican, Wisconsin, told  
the senate today Monday, in a  
hot debate on Russian recognition.

"One of the fundamentals of in-  
ternational law," he said, "is that  
no nation has the right to interfere  
in the internal affairs of another. Russia  
must show, not merely a disposition  
to abate its propaganda in the United  
States, it must abate it."

Discussing the seizure of American  
property in Russia, the senator de-  
clared that if the United States were  
to make peace with Russia, the prop-  
erty of nations would at once break  
diplomatic relations with America,  
he said. Russia must return Ameri-  
can property and must negotiate  
to return something which it has no  
right to hold.

STILL HOPE FOR  
ARBITRATION IN  
MILK STRIKEChicago—Although Chicago milk  
dealers last night declined a propo-  
sition to arbitrate, they are making  
promise between prices offered and  
asked in the price war which has  
continued since January 1, city au-  
thorities are hopeful of settling the  
strike by both parties again.

Two separate meetings were held  
last night at the instance of Dr.  
Herman H. Harkness, city health  
commissioner, but no plan for a joint  
meeting was made.

The dealers are offering \$2.60 a  
hundred pounds for a months con-  
tract and the producers are asking  
\$2.75 for six months, or \$2.85 for  
three months.

TEAM BREAKS  
THROUGH ICE  
AND DROWNSWhite River—W. R. George, 309  
Cravath street, lost his dapple gray  
span of horses when they broke  
through the ice on the upper pond,  
Monday, and drowned.

Work was started Monday for the  
cutting of ice for the condensery and  
the horses were rescued.

The horses were purchased in Reek  
county, near Johnston, and Mr.  
George had had them for six years.  
They were insured against wind  
storms, fire and lightning, but not  
against drowning.

NOTED BOAT BUILDER  
IS DEAD IN SOUTHShirley—Charles Palmer, 50, known  
throughout Wisconsin as a boat build-  
er, died Monday at his home at  
Deland, Fla., according to word  
received by Mr. and Mrs. Ed-  
ward H. Palmer. Mrs. Palmer is a daugh-  
ter of Mr. and Mrs. H. H. Palmer.  
The wife and a daughter, Dorothy, and a  
son, of Highland Park, Ill., survive.Nebraska's Painting  
May Be Original Raphael:  
Would Be Worth \$200,000New York—A painting, believed  
by its owner, Dr. John Stewart  
Livingston, of Batavia, N.Y., to be  
the original of Raphael's  
"Madonna of the Rose," or  
possibly the same artist's  
"Madonna of the Pink," now is  
being studied by H. A. Hammond  
Smith, noted connoisseur. If an  
original Raphael, the piece is  
worth \$200,000, Mr. Smith, who  
had been a restorer of paintings  
for the Metropolitan Museum of  
Art for many years, estimates.SENATE DEADLOCK  
UNBROKEN, DEBATE  
HOLDS FULL SWAYBONUS, FARM AND RUSSIA  
TOPICS OF ORA-  
TORY.DELAY ON SHOALS  
Texas Mayfield Ballots Are Or-  
dered to Washington for  
Counting.

Washington—The Bok peace  
plan and Ethel Root, chairman  
of the committee of women, were  
discussed today in the senate by  
Senator McCormick of Illinois,  
one of the republican irreconcil-  
ables.

Washington—The soldiers' bonus  
farm old and Russia were subjects  
of wide congressional debate yester-  
day either in debate on the floor or  
in committees.

Having failed to break the deadlock  
over the chairmanship of the inter-  
state commerce committee of farm-  
ers, the senate faced a renewal of the  
controversy, but with little prospect of a  
decision. Senator Smith, democrat,  
South Carolina, continued to lead  
yesterday, but with the irreconcil-  
ables supporting Senator Coughlin,  
republican, Michigan, and the re-  
publicans supporting Senator Cummins,  
republican, Indiana, the senate was  
short of a necessary majority.

Work on Tax Plan  
The house ways and means commit-  
tee continued today its work on the  
administrative provisions of the farm  
tax plan while awaiting the party  
conference of house republicans on the  
question of whether a bonus measure  
is to be reported ahead of tax re-  
vision.

Agricultural relief was the subject  
of public hearings before both the  
senate and house agricultural com-  
mittees, with a view to the re-  
organization of agricultural com-  
mittees, which have been before  
them the Norris-Sinclair farm pur-  
chasing and selling corporation which  
was approved by the senate committee  
before the senate committee.

The agricultural situation also was  
the subject of an address in the house  
by Representative Leavitt, republican,  
Montana.

Delny Shoals Issue  
The house military committee today  
continued its work on the consid-  
eration of legislation dealing with  
disposition of government property at  
Muske Shoals, Ala. It is planned to  
hear testimony before the committee  
this morning.

President Coolidge's Mexican policy,  
which resulted yesterday in an arma-  
bando directed against the De la  
Huerta revolution, was the subject  
of discussion in the senate.

Senator Robinson of Arkansas, the  
democratic floor leader, presented a  
bill which would prohibit under heavy  
penalties, the sale of munitions to  
foreign governments, either by the  
United States government or a private  
American citizen.

Unanimous decision was reached to-  
day by the senate elections committee  
to have brought to Washington for  
formal counting all of the ballots cast  
in the Texas senatorial election on  
November 7, 1922, in which Sena-  
tor Mayfield, democrat, was declared  
elected over George E. B. Paddy, who  
is contesting Mr. Mayfield's right to  
his seat.

WEIR FACES  
TRIAL BEFORE  
JUDGE GRIMMPetition for a change of venue was  
filed in municipal court here Tues-  
day by J. G. McWilliams, attorney  
for the defendant in the state's  
criminal case against David Weir,  
town of Janesville, the petition  
asking the case from municipal  
court to circuit court, was granted  
by Judge H. L. Maxfield.

Weir is held on a serious statutory  
charge involving alleged relations  
with a 17-year-old girl on Feb.  
25, 1923. He was arrested Nov. 30  
on a complaint sworn out by H. G.  
Tapp, was given a preliminary hear-  
ing and held for trial. Bail fixed at  
\$1,500, was furnished.

The case now goes to Judge  
George Grimm for disposition.

## OLD MANSION SOLD

Residence built by Peter Myers sold to Harry Summers. Its commanding  
position on the hill at Milton, East street and Milwaukee, made it one  
of the best known landmarks of Janesville for years.BANDIT WILL GET  
A GOOD THRESHING  
FOR THREE MONTHSToronto—Northern "Red" Ryan,  
bank bandit and escaped convict,  
who recently was captured with con-  
federates in a street battle at Minne-  
apolis, was sentenced by County  
Judge Costaworth to imprisonment  
for three months with thirty lashes to be  
given at the rate of 10 a month for  
three months.OLD MYERS HOME  
CHANGES HANDSFamous Old Residence on East  
Street Bought by Harry  
Summers.

Sale of the Myers house facing on  
East street and on the intersection  
of Milwaukee avenue and Milton  
avenue where it rises majestically  
so that it may be seen for miles,  
was completed last week, with Harry  
H. Summers, Janesville contractor as  
the new owner. The deal, whereby  
one of Janesville's oldest and best  
known homes passes out of the  
Myers family control, was made by  
Mr. Summers with Andrew C. Stuart,  
heir of Charles H. Stuart whose wife,  
now deceased, was a daughter of the  
late Peter Myers, sometimes called  
"Janesville's benefactor." The sale  
price was \$11,800.

20 Rooms in Residence  
The deal marks the close of the  
Myers family history as a private resi-  
dence. Mr. Summers announced that al-  
though he has not completed his  
plans for his newly acquired prop-  
erty, it will not continue to be used  
as a private residence. The house is  
two stories high, built of the old  
yellow colored brick and has a  
chimney from which on clear days  
may be seen the Pulaski-Mor-  
rison in Bolot. There are 20  
rooms and when the house was built  
during the Civil war, it was one of  
the mansions and show place of the  
city. It was built for Dr. J. J. Myers,  
but sold by him a short time later to  
Mr. Myers, to whom Janesville  
probably owes more for building up  
a business district than any other  
man of his time or since.

350 ROTARIANS  
HONOR GUNDAKERMembers from Four Cities  
Hear Address by Interna-  
tional Head.

Three hundred and fifty Rotarians  
from Janesville, Beloit, Delavan and  
Rockford paid tribute to Guy Gun-  
daker, international president of Ro-  
tary, at a banquet given in his honor  
at the Hotel Hamilton here Monday  
evening.

The gathering, enthusiastic in meet-  
ing its chief, was marked by a spirit  
of business and professional fraterni-  
ty seldom equaled.

President Gundaker, in his address,  
called for a wider adoption of codes  
of ethics in the business world as the  
only way to place business upon a  
higher and more dignified basis.

Music by the band of Janesville  
high school, group singing led by An-  
thony Olinger, Waukesha; presenta-  
tion of a fountain pen to the inter-  
national president; and the putting of  
a huge Rotary wheel made of ice  
cream added to the gathering.

Rockford, Minn.—W. S. Waburn,  
president of the Central of Greyhound  
railroad, died at a hospital here today.

MILITIA CALLED  
TO TAKE HAND IN  
BOOTLEGGERS' WAROUTLAW IMBROGLIO GETS  
BEYOND CONTROL OF  
OFFICERS.3 UNITS ORDERED  
Action Taken After Situation  
Becomes Too Threatening for  
Public Safety.

Springfield, Ill.—Troops were or-  
dered to Marion, Ill., shortly after 1  
o'clock this afternoon by Adjutant  
General Carlos S. Black.

A bootleggers' war in the vicinity  
of Marion has become so threaten-  
ing Sheriff George Galligan when  
the situation became so threatening  
that the city officers are unable to cope with it.  
The adjutant general said three  
companies would arrive at Marion at  
8:35 tonight.

They are the national guard  
infantry outfits of Salem, Cairo and  
Mt. Vernon.

NEW RECORD SET  
FOR TAX BUSINESSMonday's Rush at City Hall  
Declared Greatest Ever  
Known Here.

Favored by comparatively balmy  
weather after nearly a week's  
of sub-zero temperatures, Monday  
was the heaviest tax collection day  
in the history of Janesville. The  
receipts amounted to only \$16,728.64,  
the number of patrons was greater,  
in the history of Janesville, than  
far than on any one day.

At times the line at the tax col-  
lection window was so long that the  
taxpayers had to wait in the lobby of  
the city hall and some of those at  
the window were forced to wait  
outside and sought out chairs to rest them-  
selves while they waited to get to  
the window. The rush was particu-  
larly noticeable in the afternoon, the  
line being continuous from 1 to 5  
o'clock.

The fact that water bills are now  
being collected in the same office  
with the taxes may be partly due  
for the early rush of business this  
year, but city workers are generally  
of the belief that the fair weather  
coming on the heels of severe cold  
is largely responsible.

It. A. Griffey, water works en-  
gineer, in charge of collection of  
water bills, said he has been hand-  
ling water bills for the past eight  
years and has never seen a rush like  
the one of Monday. He reports the  
receipt of 676 quarterly water pay-  
ments within eight hours, an aver-  
age of more than one customer a  
minute.

City Clerk-Treasurer E. J. Sartell  
and Assessor Frank L. Smith  
agreed that the greatest they have  
ever seen.

Collections to date total about  
\$7,000.

## SOCIAL EVENTS—PERSONAL

 Bridge club dinner, Mrs. William Madison, Colonial club.  
 Dinner for Miss Spohn, Misses Dunning, Crowley, and Trotter, Colonial club.  
 Young Ladies' Sodality banquet, St. Mary's hall.

**Palmer-Hansen—**At 4 p. m. Monday, occurred the marriage of Miss Hazel L. Palmer, daughter of George H. Palmer, 22 South Main street, and Charles T. Hansen, Chicago, at the parsonage of Court Street Methodist parsonage, Rockford. The Rev. Jesse S. Dancy read the marriage service, while Miss Jessie McGregor and Dwight H. Hinkley, both of Janesville, attended the couple.

Mrs. Hansen has been employed at the Janesville Dye Works for many years and has made countless friends by her charming personality. Mr. Hansen is connected with Briggs and Purvis steel corporation, Chicago, where the couple will make their home.

**Married 46 Years—**Celebrating their forty-sixth wedding anniversary, Monday, Mr. and Mrs. John Q. Timmons were delightfully surprised at their residence, 227 North Jackson street, by 75 friends and relatives. A turkey dinner was served at 6:30 at 16 tables decorated with yellow and white motifs. Music with Mrs. John George, Deloit, and Theodore Dancy, this city, contributing with vocal solos, was a pleasant diversion. Cards were played and prizes taken by Mr. and Mrs. Joseph P. Connell, William Hemming and Mrs. W. L. Finley.

The Rev. Dean James P. Ryan, St. Patrick's church, at which the couple were married, presented Mr. and Mrs. Timmons with a beautiful bridge lamp, giving a few complimentary remarks.

Mrs. Mary George, Deloit, sister of Mrs. Timmons, was a bridesmaid. Other guests who were present at the wedding were Mrs. Dan Ryan, this city; Mrs. Hugh McGavock, Deloit; Mrs. Ellen Timmons, James and Richard Finley and Mrs. John Drow, all of Janesville.

The wedding took place at St. Patrick's church, Mrs. Timmons having been Miss Elizabeth Finley, Mr. and Mrs. Timmons have spent their entire lives in this city and the immediate vicinity.

Mr. and Mrs. Hugh McGavock, Mr. and Mrs. John George and Mrs. Mary George, all of Deloit, were out of town guests.

**Beta Gamma Dinner Tuesday—**Miss Margaret Birmingham, 221 South Jackson street, is entertaining the Beta Gamma sorority at the Colonial club, Tuesday night.

**Catholic Council Plans Meet—**The Janesville Catholic Welfare Council will meet at 4 p. m. Sunday at the

K. of C. clubhouse instead of Tuesday night. The time of meeting was changed because two of the pastors are out of the city.

All Catholic organizations are urged to send a representative.

**Son Born—**A son was born Jan. 2 to Mr. and Mrs. A. E. Jones, 202 Taylor park avenue. He will be named Robert Arthur.

**Dinner for January Bride—**Mrs. John Dixon, route 4, is entertaining with a dinner and informal social, Tuesday, honoring Miss Margaret Dixon, a January bride. Ten are guests.

**Dinner Club to Be Entertained—**Mrs. Charles Garbutt, 712 Holmes street, will be hostess to a dinner club, Thursday night, with dinner to be served at 7 p. m.

**Men Invited to Dinner—**Mrs. William Blanton, 22 East street, will entertain a bridge club, Wednesday, with a 6:30 dinner party at the Colonial club. The men have been invited.

**With Mrs. Nolan—**The Current Topics club met Monday afternoon, at the home of Mrs. T. S. Nolan, 402 South Third street. Miss Gertrude Cobb gave a talk on her trip abroad, showing pictures of the places visited. Miss Cobb is to continue her talk at a later meeting.

Lunch was served at 5 p. m. to 15 members.

**Grand Club Has Luncheon—**The Grand club met Monday at the Grand hotel for a 1 o'clock luncheon. Covers were laid for 15, with red and green favors decorating the table.

Bridge was played and the prize taken by Mrs. Orrin Sutherland. The next meeting is to be held Jan. 16.

Mrs. William Greenman was hostess for the day.

**18 at Guild Meeting—**Eighteen women attended the meeting of Trinity church guild, Monday afternoon, at parish house. Mesdames W. P. Sayles, H. H. Faust, John Harlow, and J. T.

Hooper were named as delegates to the Episcopal conference, to be held in Milwaukee this month.

Tea and cakes were served at 4:30, with Mrs. H. V. Allen in charge.

**Mrs. and Mrs. Garry—**Mr. and Mrs. B. S. Garry, 22 South High street, were hosts, Monday night, to the You and Iro club. Cards were played at two tables and prizes taken by Mr. and Mrs. Albert Shoemaker and Mr. and Mrs. Charles Kruse.

Supper was served at 11 p. m. at small tables. The next meeting will be held at the home of Mr. and Mrs. Albert Shoemaker, 712 Linn street.

**B. Y. P. U. Trial Wednesday—**A mock trial will be put on by the B. Y. P. U. at 8 p. m. Wednesday at the Baptist church, as the second number of the home talent program course.

The proceedings of this trial have aroused much interest, as 40 cents was confiscated, Nov. 26, during a devotional service, this money having been collected for social work.

Two detectives, Vintoo Ren and Verona Metcalf, have been investigating the clues and have arrested Esther Currier, who will stand trial Wednesday night.

The 40 members of the B. Y. P. U. will take part in the trial, with the following playing important roles: Edward H. Olson, judge; Sven Sorenson, district attorney; Erwin Senn, circuit clerk; Lloyd Morris, sheriff; Jack Young, police; Rebecca Cunningham, attorney for the defense; Helen Wilcox, court stenographer; Evelyn Rathjen, department clerk. Robert Cunningham is directing the activities of the trial.

The public is invited.

**Mrs. Schlueter Hostess—**Mrs. Lee R. Schluter, 420 Augusta street, entertained members of a bridge club and their husbands, Monday night. Dinner was served at the Grand hotel, with covers laid for 24. Bridge was played at the Schluter home and prizes taken by Mr. and Mrs. Arthur Kraberg. Mrs. Charles Kellogg and Kendall Newman.

**Honoring Miss Spohn—**Miss Lillian Spohn, bride-elect of the month, was complimented with a pre-nuptial at fair, Monday night, with the Misses Edith Henke and Queenie Roberts as hostesses. Bridge was played at the

Roberts home, 200 Madison street, and prizes taken by Miss Marie Crowley and Miss Helen Harlow.

**O. E. S. to Meet—**Janesville chapter No. 65, O. E. S., will meet at 7:30 Wednesday night at Masonic temple. A conductress is to be elected. A good attendance is desired.

**With U. B. Aid—**United Brethren Ladies' Aid society will meet at 2:30 Wednesday at the home of Mrs. L. F. Frederickson, 215 Caroline street.

**Carnation Club to Meet—**The Carnation club of Degree of Honor will meet at 2 p. m. Wednesday at the home of Mrs. Paul Bages, 622 Locust street. A short business meeting will be held, followed by a social.

**With Missionary Society—**The Missionary society of First Christian church will meet at 2:30 Wednesday afternoon, at the home of Mrs. George W. Allen, 102 North Pearl street.

**Crystal Camp Meets—**Crystal Camp, R. N. A., will meet Wednesday night, in West Side hall. All members are urged to attend, as plans will be made for installation.

**Mrs. Neumer Hostess—**Mrs. George M. Neumer, 212 Milwaukee avenue, is entertaining a club with a bridge luncheon, Tuesday.

**T. T. Meets at Hall—**St. Mary's Parochial Teachers' association will hold the regular meeting at 2:30 Thursday afternoon at the school hall.

**Change Place of Meeting—**The folk dancing class conducted by the Catholic Women's club, which has been meeting at the high school, will meet at St. Patrick's hall in the future. A

**IT IS MADE JUST DISSOLVE AND DRINK IT.**

**A GREAT CONVENIENCE AND OH, SO GOOD!**

Fortune sometimes makes fools of wise men by bestowing her carresses upon them.

## Dandruffy Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most, if not all, of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and itching of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. Four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

# PABST WONDER CHEESE

## Do You Like Real Mellow, Aged Cheese?

WHEN favored friends first sampled Pabst cheese—just a small bit that had been mellowed and aged with unhurried care—they demanded more of it—wanted it regularly—and would not be denied.

That was months ago. A mere incident then—but because of it, Pabst Wonder Cheese (as they christened this delightful treat) can now be had regularly, and by all.

Row after row—millions of pounds—now constantly fill the vast Pabst ageing rooms. There in the dim twilight it lies, day after day—week after week—watched and tended and turned with the same expert and painstaking attention that was given those first few pounds.

Only when Nature, in her slow and thorough way, has touched it with that rare, rich tang that stamps it perfect, is it released to bear the name—Pabst Wonder Cheese!

Take home a pound or two today—daintily foil-wrapped. Six delicious varieties: Picnic Swiss, Mustard, American, Brick, Pimento and Roquefort. Sold at the better grocery and delicatessen stores.

We urgently advise you to buy now for all the family and save money.

# The Golden Eagle

## LEVY'S

# The Wagon Wheel

By WILLIAM PATTERSON WHITE

Copyright 1923 by Little, Brown and Company, Boston. Serial rights from McClure Newspaper syndicate.

"Sick!" squatted the marshal. "Sick!" you'd think he was sick if he'd been under the chin the way he did me! Sick! If I'm never sicker than he is, I'll live forever! Sick! I'll make him sick! And he reached again for the prisoner.

"Come in," called Judge Windus, regarding them with a bluish eye. "Don't stand blocking the doorway. Come in and shut the door. Gaudy! What a sight! No need to alarm the judge. I got a headache. And what do you want, Charlie? The other fellow? Who's this behind you? What did you tell the doctor for, Tom? I told you I wouldn't sentence him till this afternoon."

"Quite right," said the agent, taking in upon himself to reply. "It's afternoon now."

"I meant this afternoon at the court house," roared the judge, sloshing the coffee round in his cup. "What did you bring here for, Tom, I asked you?"

"Tom brought him here at my suggestion," asserted the agent, causing the full power of his best smile on the judge. "I thought it would save trouble. Why go to all the bother of convening court in the court-house when you can settle the job at home? You see my point? Yes, As I was saying, the prisoner—"

"What in so-and-so and such-and-such have you got to do with the prisoner?" the amazed judge demanded. "And why are you so anxious to save me trouble?"

(To be continued.)

## Dinner Stories

When Paderewski was on his last visit to Boston, it is related, he was approached by a bootblack who called:

"Shine."

The great pianist first refused, but when the bootblack became persistent he looked down at the youth, whose face was streaked with grime, and said:

"No, my lad, but if you will wash your face I will give you a quarter."

"All right," exclaimed the youth, who forthwith ran to a neighboring fountain and made six ablutions. When he returned Paderewski held out the quarter, which the boy took but immediately handed back, saying:

"Here, sir, you take it yourself and get your hair cut."

An Irish soldier had lost an eye in battle, but was allowed to continue in the service on consenting to have a glass eye in its place. One day, however, he appeared on parade without his artificial orb.

"McGinnity," said the officer sternly, "you are not properly dressed. Why is your artificial eye not in its place?"

McGinnity was lost for an explanation.

"Sure, sir," he said, "I left it in my box to keep an eye on me while on parade."

The teacher explained to her young pupils some facts concerning various organs of the body, including the eye as the organ of sight, the ear as the organ of hearing, and the like. Then she asked the pupils to repeat to her what they had learned. There was a short silence, broken at last by a bright little boy, who piped out:

"I see with my eye organ, hear with my ear organ, I smell with my nose organ, I eat with my mouth organ, and I feel with my hand organ."

## YOUR BABY and MINE

By MYRTLE MEYER ELDRED

Mrs. Eldred is happy to advise all mothers about the care of their children of any age, or on any subject which may be of help in the field of the doctor.

A ONE HUNDRED PER CENT BABY

The request comes from one of my readers to print this letter for the benefit of other mothers, so here goes:

"My baby was 10 months old last week and weighs 25 1/2 pounds. At the baby clinics he has been described as a 100 per cent baby."

"Some of my neighbors say it is just luck that I have had with him, but I feel that all mothers can have perfect babies if they will take a real interest in their care."

"I read and studied everything I could get hold of on pre-natal care from the very first month of pregnancy, and kept this up—the correct food, exercise and dress, until the baby was born."

"We weighed nearly 10 pounds and was fed up to three months on the breast, and from then on with milk."

much more sensitive than on other parts of the body.

"I have been very careful and regular with his feeding and with the care of the bottles, nipples, sleep, exercise and formulas. I read and am interested in everything concerning the mother or child and follow the instructions. Though I have never needed advice from you, I read every one of your letters daily and feel that if more mothers would take heed to advice in them there would be more babies with luck as mine has been described. Thank you."

Editor's note:

One can't help feeling a little the way the author of this letter feels, that if mothers were willing to follow some of the advice about modern care of infants given gratuitously, instead of trying to rear their babies as if we were still living in the days of 50 years ago, more babies would mean up to this very excellent standard. No one can improve on careful, regular care if she wants the best results.

Wednesday—Insomnia.

Household Hints

MENU HINT

Breakfast.

Sliced Bananas.

Cereal and Cream.

Eggs and Bacon.

Hashed Brown Potatoes.

Rolls.

Luncheon.

Potato Soup.

Toasted Bread Strips.

Fruit Jello with Whipped Cream.

Cookies.

Milk or Cocoa.

Dinner.

Liver and Bacon.

Hashed Potato with Brown Gravy.

Cranberry Sauce and Carrots.

Pickled Beets.

Gingerbread.

Tea.

TODAY'S RECIPES

Hashed Brown Potatoes—Chop plain

boiled potatoes quite fine. Put fat

in frying pan and let it get hot. Pour

in chopped and seasoned potatoes.

Fry until brown, then turn and brown

on the other side.

Potato Soup—Cook three small

potatoes, one small onion and a stalk

of celery until tender, then strain

through wire strainer. Put one large

tablespoon butter in saucepan or

doughy butter, add one tablespoon flour

and mix smooth, then add gradually

one pint of milk. Cook until smooth,

add strained potato and other vegeta-

bles, season with salt, pepper, potato

and celery salt and let come to a boil.

Toasted Bread Strips—Cut bread

into strips. If you want them to be

particularly nice you may remove the

crusts, but personally I like them left

on. Toast a nice even brown and

serve piping hot with soup.

Fruit Jello—Oranges and bananas

are the standbys for winter fruit

jello. If you add nuts it adds to the

food value of the dessert. Any kind

of stewed fruit, such as peaches or

apples are nice to use and the

canned berries without the juice may

also be used. The juice may be heat-

ed and used in place of hot water to

dissolve the gelatine. Plain, un-

whipped cream may be used in place

of the whipped or the gelatine may

be served plain.

Liver and Bacon—The bacon may

be fried or broiled brown and crisp.

Pour cold water over the slices of

liver, let stand until thick and smooth,

stirring constantly. Garnish liver

with bacon. Have platter hot.

SUGGESTIONS

When putting on home-made socks by

hand or sewing up a loose rip it is

better to fasten the thread every little

while. It doesn't take much longer

and if the thread is accidentally broken

it only rips out a little way.

If white lingerie tape is used in

place of baby ribbon in baby's

dress, it can be left in when the

dress is laundered and saves the time

of running ribbon in each time the

garment is washed.

ALBANY

Albany—The Misses Thekla Stew-

art and Ella Webb were seen at the

Fort Atkinson Saturday after having

spent the week with relatives.—Miss

Maible Newman of Juda visited

friends here over the week-end.

Charles Phillips was a caller in

Rockford Friday.—C. S. Pelice of

Lebanon, Ind., was a business caller

here Thursday and Friday.—Mrs.

Ben Gonthompson of Poyndette, Wis.,

is here caring for her mother,

Mrs. Will Barton, who is ill.—Albert

Zimmerer and Mrs. Charles Webb

were here Friday and Saturday.—

Miss Doris Knight, who has been

visiting in Chicago, returned Satur-

day.—The Misses Margaret Watson

and the Hamiltons of Jersey and

Vermont, Ill., returned to their resi-

dences Sunday so as to resume school

work on Monday.—The Albany

Poultry Show opened Monday, Jan. 7.

## WINTER EXHIBIT OF NEW MODELS OPENS THURSDAY

LATEST AND FINEST MODELS TO BE PRESENTED TO PUBLIC GAZE.

### MANY FEATURES

Music and Flowers to Make Skidd Building Attractive Show Place.

While people in New York, Chicago and other cities are waiting anxiously for the doors of the great auto shows to open in those cities so that they may get their first glimpses of the secrets and design and equipment of the 1924 models, Jansville and southern Wisconsin will be days ahead of them.

Jansville's big auto show, the biggest and finest ever staged here, will throw its doors open to the public at 2 p. m. Thursday. Then, throughout that day, Friday and Saturday of this week, auto fans will have the opportunity to see the very latest in the automobile world. All of the 1924 models with their superlative refinements, with their graceful beauty of line, with their last minute refinements of engineering skill will be on the floor.

**In Skidd Building**  
The auto show, staged under direction of the Jansville Automobile Dealers Association, will be held in the Skidd building on the corner of West Milwaukee and South Locust streets. The location is one of the best in the city, central to every portion and upon a corner that affords the greatest amount of space for the parking of autos of those who attend the exposition.

The entrance to the show building will be on the South Locust street side.

The late models of motor wonder will come here direct from the factories. They will dazzle in the history of their coats of enamel and the shine of sparkling metal.

**Many Exhibits**  
Fifty of the latest models will be on display. They will take in every class of machine from the roadster, light through the touring car, coupes, sedans, limousines, coaches and sport and special models. Cars that fit the purpose of the season, the man of the wage earner, the man of comfortable means and the man with a big bankroll—cars for every body will be displayed. They will make the greatest collection of the 1924 ultimate in motor car manufacturing, a rather of the finest that man's brain and skilled hands, plus labor saving machinery and intricate machinery, has yet been able to produce.

The first auto show was held at Madison Square Garden in New York in 1900. In that year, the makers had to spend hours trying to convince people that the contraptions actually could run. There were 29 autos on display and a miniature track was used to show by practical demonstration that despite smoke, rattling fire and noise that sounded like small cannon—that despite those things the cars would go.

But today, in their splendor of varnish and ultra machinery, autos attract not by their strangeness, but by their practicality and their pleasing lines. From the pure curiosity of a mechanical turn of mind, they have changed the popular idea to an admiration of curves that once were found only in the art gallery and to a usefulness that would please the heart of the economist.

**Arrangement of Exhibits**  
That is what the public will see at the Jansville automobile show. They will see refinement; they will feel the thrill of marvelous ingenuity.

The Skidd building will be turned over to the auto dealers of the city. The first and second floors will be transformed into a veritable fairyland. Garlands of flowers from which will twinkle vari-colored lights and pretty lighting effects in the corners will throw a wondrous glow over the entire scene.

The 50 autos will be arranged in a most attractive way. Each will have its own booth plenty large for the visitor to see every point of attraction to the finest advantage.

A novel and new way of guiding the crowds that will attend has been devised. The person who visits the show will go in one way and be guided in a flowing stream. In this manner, no car will be missed and bumping crowds will not interrupt. It will be one-way traffic. The booths will be in the center and the cars on the edge of the aisles.

While all the finest cars will be on exhibit, all the latest in accessories will also be shown. There will be 20 booths devoted to those things that give added touch to the automobile in comfort. There will be every conceivable labor saving device for the motor car. There will be the latest in equipment—accessories—for the machine.

Sixteen thousand square feet of floor space will be devoted to the

show. Workmen are busy Tuesday and will work all through Wednesday and Thursday morning to put the touch of adornment on the interior of the entire building.

**Music in Evening**  
An orchestra will play during every evening. There will also be other entertainment to give added attraction to the show, which the auto dealers are making the best ever.

The doors open each day at 2 p. m. and close at 11 p. m. An admission charge of 10 cents will be made.

Monday night, the Jansville Chamber of Commerce sent out 3,000 cards to R. P. D. routes inviting those in the outlying territory to come to the city and see the show.

The dealers who are showing autos are:

Nichols Auto Sales company, Maxwell and Chalmers; R. W. Motor Sales company, Chevrolet; J. C. Pfeiffer, Oakland, Geo and Overland; Jansville Buick company, Buick; J. A. Drummond, Buick; R. P. Duggs, Ford and Lincoln; Power City Implement company, Oldsmobile; Service Garage, Hudson and Essex; Garanger Buick company, Cadillac; and Huppmobile; O'Connell Motor company, Dodge; Roseling Garage, Cleveland and Chandler; Lutes Motor Sales company, Moon.

## WON'T DROP FAIR FOR DAIRY SHOW

National Expo Invited to Milwaukee, However, by Officials.

Madison—Because of legal and other obstacles, state officials announced last night following an extended conference, that they had declined to disperse with the 1924 state fair and combine efforts in the national dairy show, which is proposed to be held in Milwaukee next October. Officials declared that dairy show officials were invited to hold the show in Milwaukee without dropping the state fair.

The conference was attended by Governor Blaine, State Commissioner of Agriculture J. D. Jones, O. E. Reuter, secretary of state fair, W. E. Skinner, secretary of national dairy show and L. C. Whitte, Milwaukee.

Secretary Skinner will place the state officials' proposal before the national officers of the show before that decision is made.

### THE AUTO IS A FARM NECESSITY, HE SAYS

"There is one fallacy I should like to point out in connection with the farmer," says Julius Rosenwald, president of Sears, Roebuck & Co., in an article in The New York Times. "Time and again I meet people who insist that in spite of what the farmer says about his money losses he is prosperous. They point to the fact that nine farmers out of ten own automobiles. Let me say that the ownership of an automobile is no indication of prosperity. The farmer, by virtue of his vocation, needs some kind of vehicle to take him to market. In the past it was the horse and wagon, today it is the automobile. That is not a mark of prosperity, but only a mark of progress."

**FEDLER IS APPOINTED.**  
Madison—Governor Blaine today announced the appointment of E. V. Fedler of Superior, as a member of the state grain and warehouse commission, to succeed him.

The gray matter in a melancholy person's head must be a dark blue.

## Five Million Automobiles Is Prospect for 1924

The automobile industry last year did the best it could with its machine tools and labor. It smashed production records into microscopic pieces. It turned out between 3 1/2 and 4 million motor vehicles, says Henry Cary in Colliers.

You can't get the force of that fact without looking back for a moment. That is, 1923 was the great boom year for cars. Then 1922 smashed 1920 by 20 per cent. Along came 1923 and smashed 1922 into the basement—by at least 40 per cent.

It is obvious, of course, that we cannot go on, year after year, smashing records by 20, 30 or 40 per cent. Somewhere the present curve must turn sharply. That is as inevitable as the fact that the Fourth of July is coming, but so is Christmas and next winter, so is the year 1924. Meanwhile, what, and when?

**Not Enough Yet**  
The big automobile men say, not yet. They are tuning up to heat 1923 in 1924. They say they can build from 25 to 40 per cent more cars this year than last, or about 5 million. On manufacturer announced a program of ten thousand cars a day. His associates say they expect to average eight thousand a day for three hundred days, or almost 2 1/2 million for the year. It is said that another manufacturer will turn out a million, so that these two makers alone will make more than the entire industry of 1922. Several other big builders have plans for enormous numbers. Obviously, you can go a long way before you find pessimists in that group of hard-headed business men.

Should they be right and they can sell that many cars, who is going to buy them and where are they going to run? Certainly not on Fifth avenue in New York, or in Chicago or in Los Angeles. Those streets won't hold any more, to speak of, unless the show is held in the morning and daylight. The business has been estimated, including tires, repairs and oil, to be as much as 6 billions a year now, or about 10 per cent of the nation's business.

**All Want Cars**  
Every sign points definitely to 15 to 20 million cars in this country. Given road saturation will not stop it; we are building roads at high speed, too. In this year of 1924, if business is dull, we won't break the 1923 record. We shall have to replace a couple of million worn-out cars, and we will add a million in the hands of new buyers—these facts being the opinion of the standard bureau, which expects a slower year. But it is open the other way, as the Harvard business service so far seems to think it very well may. Watch that record go by the board before November, 1924. These are the reasons why.

There are today between 5 to 10 million families in the United States who want cars badly. They are saving and skimping to get them. They want cars more than they want silk shirts, pianos, books and theaters, or even girls and steak. It is probable that between 2 and 3 million of these families will buy cars this year. Add those to the 2 million replacements and there goes another record—1 1/2 to 2 million new cars in 1924, our biggest automobile year.

### DOES YOUR CAR'S UPHOLSTERY NEED A GOOD CLEANING?

If you are driving an open or closed car, at some time or another you will want to clean the upholstery of your car to keep your clothing from becoming soiled.

Do you know how to start this operation?

Often times, after a few dusty runs, the cloth upholstery of the closed car becomes laden with dust which is practically impossible to touch without getting black.

**The Right Way to Clean It**

This dirt can be removed by lightly beating the cushions, then removing the dust with a vacuum broom—here is another place where a vacuum cleaner will prove its worth.

Gasoline or benzine has a tendency of spreading the dirt instead of removing it, therefore its use is not recommended.

Grease or oil may be quickly removed by an application of a solution of lukewarm water and Ivory soap, applied with a clean, white cloth.

Another method of cleaning cloth upholstery is to rub the cloth with a mixture of water to which three-quarters of an ounce of salt and two ounces of alcohol have been added.

Should your car be an open model, you will be interested in keeping the leather free from dirt. Water, to which a little ammonia has been added, is a good solution for this purpose. A good, brisk rubbing with a soft cloth is all that is needed to restore the leather to its original luster.

Leather upholstery will be preserved and softened by applying a good dressing.

You can make your own leather dressing by mixing linseed oil and turpentine in proportions of two parts linseed to one of turpentine.

Never use gasoline or kerosene to clean upholstery—such treatment will crack it.

### Automotive Industry Uses 34 Per Cent of Steel

The automotive industry used 34.5% of the total amount of sheet steel shipped by 25 independent producers during the last six months of 1923, according to a report in the Iron Trade Review of an address given before the National Association

### TWELVE MILLION MOTORISTS SHOULD HEED WARNING

Aware that the touring season brings the pinnacle of automobile travel and increased highway hazards, the National Automobile Chamber of Commerce just recently issued a warning to twelve million motorists:

The cautions total seven:

1. Would you willingly injure a child?
2. Drive reasonably.
3. Put your city on the Safety Honor Roll.
4. Remember you are at times a pedestrian.
5. "After you" is courtesy on the road, as well as in the doorway.
6. Keep the brakes in perfect condition.
7. Haste makes havoc.

A small percentage of the motoring public causes the thousands of motor accidents and fatalities which occur every season. It is the aim of the automobile world in 1923 to stimulate this havo-motoring minority to eligibility in the Safe Drivers Club.

of Sheet and Tin Plate Manufacturers. These 25 concerns shipped 88.6% of the total shipments of all independent manufacturers.

The next largest consumers were: jobbers who took 14.4%; electric manufacturers 8.2%; and roofing, 6.1%.

### TOUR OF WELFARE SPECIAL PLANNED

[BY ASSOCIATED PRESS]

Madison—Schedule for the child welfare special for the 1924 season is now being completed by the state board of health. It was said today. A few more counties will be added to the tour and applications will be received for two or three weeks. The special truck tours rural districts in the interest of health improvement through physical examinations and advice. The special will start its tour about April 1.

Jan. 12-13, Gazette Annual Review.

## DODGE BROTHERS TYPE-B SEDAN

When winter intensifies your desire for closed car warmth and protection, remember that Dodge Brothers Type-B Sedan is almost as inexpensive to own and operate as an open touring car.

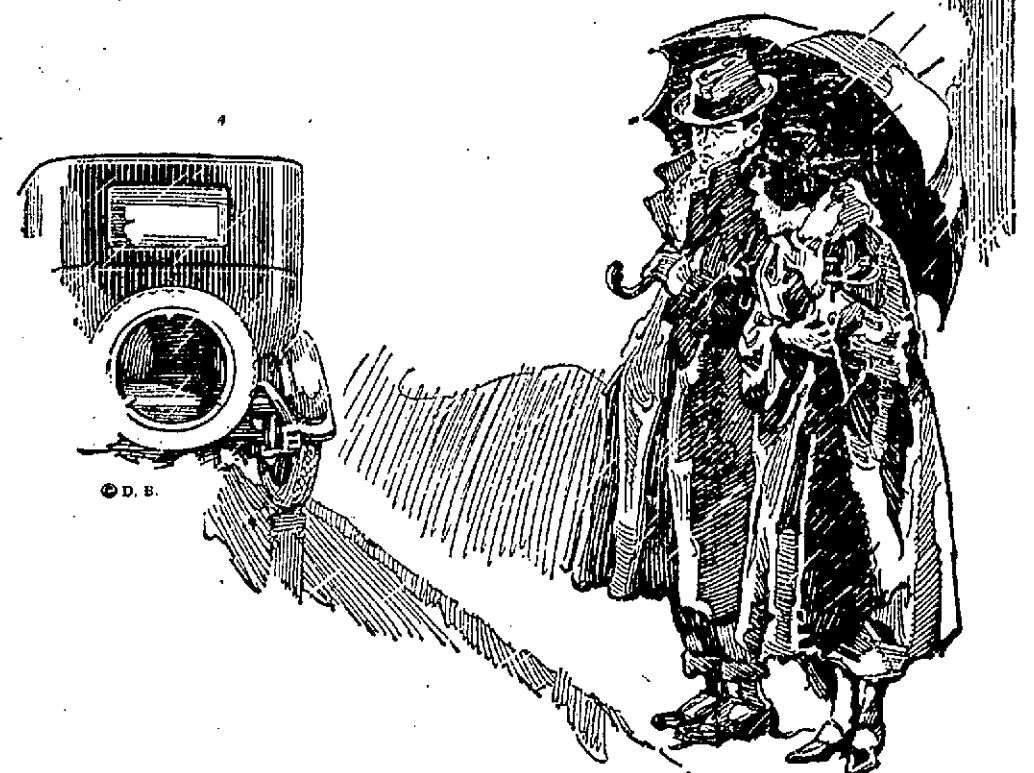

The price is \$1250 f. o. b. Detroit—\$1355 delivered

## 1923 Was Peak Road Year in State; Slump in 1924

BY F. A. CANNON  
Executive Secretary, Good Roads Association of Wisconsin.

Figures for 1923.

Mileage concrete surfacing built

Mileage gravel and miscellaneous surfacing—1200.

Mileage grading—1369.

Mileage built under state and federal laws—1100.

Mileage built under county bond issues—327.53 miles or 78.5%.

Largest mileage of concrete construction, Dodge county, 55 miles.

Large amount of earth removed, 7,000,000 cu. yds.

At 9 ft. deep, 24 ft. wide at the top and 6 ft. wide at the bottom, 264 miles long, or from Milwaukee to Eau Claire.

Total of 43,000 railroad cars of gravel were used for concrete construction, or 860 50-car trains.

A total of 7200 railroad cars were required to haul the cement for concrete construction, or 144 50-car trains.

Total of 7200 railroad cars was required to haul the cement for concrete construction, or 144 50-car trains.

This means that over 1050 railroad car trains were necessary to haul aggregate for concrete construction.

Total number of barrels of cement used, 1,550,000.

Bridges built, 420, costing approximately \$4,000,000. The total length of these bridges was 13,600 feet, or 3 and 2/5 miles. The longest was the Madison Street bridge at Eau Claire, length 650 feet.

There was spent on maintenance of the 7500 miles state trunk highway system \$3,000,000 and on maintenance of the 10,400 mile county trunk highway system, \$2,500,000. Of this \$4,000,000 came from motor vehicle license fees and \$1,500,000 from taxation.

1924.

The concrete mileage construction for 1924 including 25 miles unfinished this year, is estimated at 275 miles.

The mileage of miscellaneous surfacings will run to 1,000 miles and grading operations about 1500 miles.

The above figures given in paragraph form are some outstanding facts regarding highway construction for 1923 with indications regarding the prospects for 1924. It will be noted that the concrete construction program will fall off sharply this year as compared with last year—from 430 miles to 275 miles. This is due largely to the fact that a number of counties which have been pushing construction programs under bond issues have finished these programs. A degree of it is due to the fact that the funds available to meet federal aid will be cut next year.

The year, 1923, was the banner year for concrete highway construction. In the year, 1920, 170 miles of this type of surfacing was finished; in 1921, 340 miles; in 1922, 255 miles; and as noted, in 1923, 431 miles. Since 1912, 1750 miles of concrete have been laid on highways in Wisconsin and of these over 93 percent of the mileage is now in service.

The gravel and miscellaneous surfacing programs continue at about the same rate from year to year, and the same can be said of grading operations.

A somewhat new development in 1923 was tar treatment of gravel surfacing, especially in Dane county. Some 50 miles of this work has been done and next year it is expected that 200 miles will be done. This is required where heavy traffic runs over gravel roads in order to preserve the road surface and keep it smooth and to keep down the dust.

While Wisconsin has made good progress in the past, when we are aware that there are 78,000 miles of highways in the state, the inference is that we are merely beginning at a big job. The number of motor vehicles is increasing at an amazing rate and are now at the point where there is one car for every six people in Wisconsin. These vehicles demand good roads for their economical operation. A careful analysis of the cost of operation of a motor vehicle over different types of road will show, as many tests have shown, that it costs more to operate a motor vehicle over a poor road than the taxes necessary to build a good road.

In the matter of maintenance our roads are getting better from year to year although this year some of the main, heavily travelled gravel roads have begun to yield to intensive traffic, meaning a larger expenditure for maintenance or the building of higher type roads.

In the matter of legislation, in the year 1924, the state begins to operate under a new highway law by which all state highway funds for maintenance and construction will come from a graduated license levied on motor vehicles. No highway funds will be taken from the general property tax for roads.

Thirty-six states have adopted the gasoline tax as a method for road financing and there is every indication that eventually Wisconsin must come to this method.

Easy Riding and More Power Are

Pride of Buick

Easy riding and more power is one of the features of the Buick, handled here by the Janesville Buick company, 110 North Franklin street, Gerald Scherer manager. More flexible springs and a longer wheelbase contribute to the popularity which the Buick is enjoying. The motor with removable head, larger valves which are water cooled, and a larger water capacity, is wonderfully quiet and powerful. The new motor has an automatic fan belt take-up attachment.

Delivery of sold cars is being made promptly. The local company is endeavoring to keep as many cars on display here as possible.

Five cars and a chassis will be displayed at the auto show and the construction and working of the four wheel brakes will be shown.

Lincoln Cars

in Six Models

for 1924 Season

Six Lincoln cars, with custom built bodies are offered the American public this year, as part of the production of the Lincoln Motor company of Detroit. These special bodies are offered by the company to meet a demand among the purchasers of high-grade motor cars for special coach work and due to the fact that this company is able to take practically the entire output of three of

the largest custom body makers in the country, they can be marketed at far less than an individual could purchase a single body.

These six types include a seven-passenger, inside-drive, limousine; a four-passenger berline; a two-passenger coupe; an open drive limousine; a town car and a cabriolet.

These bodies are mounted on the standard Lincoln 126 wheelbase chassis and colors are optional with the purchaser. In several cases the purchaser of the custom jobs also has the option of upholstery colors.

With the exception of the two-passenger coupe all the cars are designed to be chauffeur driven and every appliance which might contribute to the comfort of the owner and passengers has been included in their construction.

At this time the bodies are being

made by the Fleetwood Metal Body company, Fleetwood, Pa., Brunn & Co., Buffalo, N. Y., and the J. J. Judkins company, Merrimack, Mass. These three companies have long been recognized as the builders of the finest custom bodies in the country and they are now making a specialty of this work for the Lincoln Motor company.

New Essex Six

Is a Sensation;

Model on Display

The new Essex Six has come. The Service garage, 205 West Milwaukee street, Claude Fredendall, proprietor, has a coach in the show room. It is a six cylinder, roomy, lower and lighter, and is exceptionally low priced. It is described by one of the leading trade authorities as a type of vehicle long needed in this country. The motor is chain driven, has aluminum pistons, roller tappets, and

the exclusive Hudson design crank shaft. For greater efficiency throughout the seasons of the year the car is equipped with radiator shutters and a multi-motor.

The bodies are developments of types which are familiar to all motorists. They are longer, better rounded out in their lines, and generally more pleasing. The bodies are dark blue with vermilion wheels. Rear windows in the coach are raised and lowered with a mechanically operated device.

"Y" COMMITTEE NAMED TO STUDY CONSTITUTION

Five of the board of directors of the local Y. M. C. A. will be appointed to a committee to further consider the new constitution of the association, now up to the vote of the local organizations for adoption, according to decision of the board at its meeting Monday noon. F. A. Hathaway, secretary for Wisconsin, and L. E. Duall, secretary for Michigan, met with the board and explained parts of the document.

## New and Especially Made Autos Cross the Dunes of Sahara for First Time

[SPECIAL TO THE GAZETTE.]

Oasis of Tozeur, Southern Tunisia—For the first time in history, the great sand dunes of the Sahara have been crossed by an automobile, and a road way has been opened up between Southern Algeria and Southern Tunisia, which are separated by an expanse of desert land 185 miles wide, including 62 miles of the worst sand dunes of the whole desert. This district, lying between Touggourt, Algeria, and Tozeur, Tunisia, has hitherto been practically inaccessible by camel caravan, the trip taking 10 or 12 days. Now it has been crossed by an automobile in two days.

President Dalpiaz of the Compagnie Generale Transsaharienne, left Touggourt on the morning of Dec. 28 and reached the Oasis of El-Oued, 75 miles away, the same evening. Dec. 29 was spent in exploring the Oasis. Dec. 30 the second stage of the journey was accomplished, Tozeur being reached well after dark. The whole journey was completed without any untoward incident, although the difficulties encountered were tremendous. Many miles of sand hills were ascended and descended at angles varying from 20 to 25 degrees—sometimes 45 and even 45. All this was accomplished with almost unbelievable ease by two automobiles specially designed for the purpose by the Renault firm. The Sahara has been crossed before, from north to south, from Touggourt to Timbuctoo; but this was by means of caterpillar-wheel machines, and the road used ran, except for a very short distance, across the hard ground of which the greater part of the North African desert consists. When the caterpillars attempted the route east from Touggourt they failed, although they were finally able to reach El-Oued by means of outside aid, digging and hauling.

The automobile used on this latest trip has six pairs of wheels. Of these the eight rear wheels receive the propelling power from an ordinary ten horsepower engine of the type used on the small Renault cars. Carrying six besides the chauffeur, the car weighs about three tons when wholly loaded.

A French officer who has spent years in Africa and knows thoroughly all those parts of the Sahara which a white man has ever visited, tells me that if the new type of automobile is able to perform such a feat as that just accomplished, it can go to any part of the desert without much difficulty. The bad lands between Touggourt and Tozeur are the worst in the Sahara, he says. The sand is loose, and the country changes its profile in every wind storm, great hills up-rising where formerly there were valleys, and vice versa.

A Renault 12-wheel automobile will cross snowdrifts and sands with equal facility.

Pikes Peak Motor, and enhanced beauty in body styles, the new model is chiefly notable for an innovation that marks the greatest advance in automobile construction since the advent of the self-starter.

This new feature is the Traffic Transmission (Campbell patents). Like the Pikes Peak Motor, it is built by the Chandler company and is an exclusive feature of the Chandler.

Just as the self-starter did away with the dangers and discomforts of cranking, so does the Traffic Transmission abolish all the annoyances, difficulties and hardships of gear shifting.

You do not shift gears in the 1924 Chandler—you merely move the lever with a slight effort, and the Traffic Transmission does the rest. You can't miss a shift. You can't slip the teeth. You can change to any gear instantly. You can change from high to second or low regardless of car speed and motor speed. You never have to "feel your way"—running or standing still.

Although but few women are deep thinkers, they are clothes observers.

## Roesling Likes Cleveland Six

E. J. Roesling is enthusiastic over the Cleveland Six for 1924. Speaking of the coming season he said, "You will see the Cleveland at the auto show. Cleveland still leads! This time with 1924 models so dominant in value that their long-awaited appearance constitutes one of the most important and impressive events of the season."

"Inspection of the nine new handsome models will reveal numerous engineering refinements that provide a brilliance of performance, a standard of beauty, and an ease of operation never before obtainable in a car so moderately priced."

"The Cleveland Six has always been fast on hills and fleet in traffic. Now it is even faster! Cleveland owners have always enjoyed big mileage. In the new model they will get more so financially."

"In appearance the Cleveland was

always a distinguished car. Yet even more graceful lines distinguish the 1924 production!

"Dependability and long life have always been characteristics of the Cleveland. Yet the new model has been vitally strengthened!"

"So lightly has the Cleveland always handled, that it is widely known as a 'woman's car.' Now the weight of one hand guides the wheels, and the pressure of one finger operates the clutch!"

"So many improvements of such far-reaching importance on a new model that has been generally regarded the soundest investment in its class, make the 1924 Cleveland a car that should be seen and driven by every one who plans to buy an automobile regardless of price! The value is there—and it cannot be matched!"

**PRACTICALLY SPEAKING**  
"And when shall you return from your tour, in three months or so?"  
"In three months or so physically, but in three years or so financially."

—Chicago Phoenix.

## Ford Company Predicts Early Rush for Cars

As New Year's dawns the automobile is seen coming into a greater era of popularity which will bring it more intimately than ever into the commercial and social life of the nation.

This is the opinion expressed by officials of the Ford Motor company, which has during the year just ended enjoyed the greatest business in its history. The opinion is based upon reports received from various sections of the country and upon dealer estimates coming in for 1924.

These all indicate not only a growing prosperous condition generally, but a greater tendency toward the use of the automobile, both as a passenger-carrying vehicle and a commercial hauling unit.

Another feature of this review and one which most closely affects the prospective purchaser is that buying

will start much earlier in the new year than in the last, and the so-called "spring rush" will be on long before the winter snows have melted. Apparently many persons contemplating the purchase of cars the coming year have profited by the experience of others in previous seasons and do not intend to delay placing their orders. Consequently they have determined to get into the market early and as a result the 1924 car shortage period will be advanced a number of weeks.

## TROTZKY TO SEEK MILDER CLIMATE

Moscow—An official bulletin says Leon Trotsky's illness will force him to quit work and seek a milder climate.

## DAWES AND YOUNG ARRIVE IN PARIS

Paris—Brigadier General C. G. Dawes and O. D. Young, American representatives on the committee to inquire into German finances, arrived in Paris.

## ORFORDVILLE

Orfordville—While roads in this section of the county are badly congested, none are impassable. But traffic is somewhat belated, and farmers are trying sleighs, wagons and automobiles. No service was held at the Methodist church Sunday owing to the disagreeable weather. Services were held in the Lutheran church parlors. School began Monday after the holiday vacation, all teachers having arrived in the village Sunday. Norton Wells and Signa Peterson returned to St. Olaf college Monday after spending the holiday vacation at home. H. C. Midahl, who recently underwent two operations at Mercy hospital, Janesville, returned home Saturday. His condition is much improved. Several poultry fanciers in the village are having electric light installed in their hen houses, with the thought of inducing more activity and more eggs in their flocks. S. H. Rosster, who spent the last month at the home of his brother in Milwaukee, has returned to the village and is visiting friends here before returning to his home in South Dakota.

# See these New Sedans —then marvel at the prices!

Four Door

5 Passenger

\$1895

F. O. B. Cleveland

7 Passenger

\$2095

F. O. B. Cleveland

## The Car of the Year

**NEW LOW**  
prices are the outstanding feature of Chandler's 1924 announcement.

Never has closed-car comfort been given to the public at so low a cost.

Two new sedans are offered, the four-door five-passenger at \$1895 and the four-door seven-passenger at \$2095. The price of the popular Chummy Sedan, last year's big winner, has been reduced to this figure:

## Chummy Sedan—\$1745

With this development Chandler narrows the price gap between touring cars and closed cars almost to the point of disappearance.

Sedan bodies of such genuine beauty and durability have never been obtainable at so slight an extra cost over touring models. This is particularly true in the \$1500-\$2000 class where the Chandler chassis has taken unquestioned leadership.

The phenomenally low prices have not been achieved by any sacrifice of quality.

Each body typifies Fisher's unequalled mastery of the coach builder's art. Combining ruggedness of construction with grace of line and richly finished interiors, they constitute an offering of exceptional appeal.

Freedom from annoying squeaks is insured by unusual structural solidity. The doors will not develop rattles. The paint finishes are full toned and brilliant.

(The Traffic Transmission is built Complete in the Chandler plant under Campbell patents.)

## The True Test of Closed Car Value

At the New York Automobile Show and in the sales rooms of its retailers the country over, Chandler now displays a line of new sedans whose appearance, construction and price establish a new basis of judging closed car values. The appended table shows that the price gap between touring car and closed car is carried almost to the disappearing point:

5-Passenger	5-Passenger	7-Passenger
Chummy Sedan \$1745	Sedan \$1895	Sedan \$2095
Touring Car \$1485	Touring 1485	Touring 1635
Difference 260	Difference 410	Difference 460

All seats are amply wide, deeply cushioned, and luxuriously comfortable. The upholstery material is a plush of durable texture and is made in an original design of unusual beauty.

That the new cars constitute the greatest of sedan values will be instantly apparent to all who know the ruggedness of the Chandler chassis and the supremacy of Chandler performance.

## Pikes Peak Motor

Built to master a mountain, the Pikes Peak Motor has officially established the Chandler as having no performance equal, regardless of cost or class. Matchless high gear capacity, amazingly swift acceleration, silence, smoothness and flexibility are the acknowledged attributes of this famous power plant.

## Traffic Transmission

Generally regarded as the biggest advance in automobile design since the self-starter, this exclusive Chandler feature banishes the evils of the old-fashioned gear shift with its uncertainty and clashing. In a Chandler, the least experienced driver can change to any speed, instantly, silently and positively. The familiar gear lever and clutch are used exactly as before. There is nothing new to learn except the delightful driving ease thus provided.

Dominant in beauty, spaciousness, master performance and handling ease, these new models offer closed car values whose pre-eminence investigation will reveal.

## WITH THE FARMERS

### Farm Bureau Official Information

## 'CO-OP' MARKETING PRODUCERS WILL OF EGGS FAVORED NOT JOIN STRIKE

J. D. Harper Conducts Investigation for Illinois Agricultural Association.

Investigations of cooperative poultry and egg marketing associations in nine western states and in Canada have been made by J. D. Harper for the Illinois Agricultural Association, with the view of working out a policy of poultry and egg marketing suitable for Illinois conditions.

These studies were made in Missouri, Colorado, Utah, Idaho, Washington, Oregon, and California, California, Texas, and Missouri.

**Grading by Quality**  
"Grading by quality is the most important service which co-operative marketing is rendering to egg producers," says Mr. Harper. "Standardized products are essential to proper marketing. Marketing associations which are paying their members on the basis of grade are the ones that are succeeding and getting the best prices for members."

In Utah, poultrymen were paid 12 cents per dozen for eggs in May, 1922. The producers organized a co-operative marketing association in March, 1923. They pay by grade and quality and their standard is 12 cents. They now have 1,200 members and sold 160 cars of eggs and 20 cars of poultry in 1923. Nearly a million dollars' worth of business was transacted. In 1922, Utah shipped out only 17 cars of eggs. Seven cars were imported.

Similar success with grading by quality was found by Mr. Harper in Washington, Texas, and British Columbia.

**Regulate Flow**  
"Cooperative poultry and egg associations are able to bring order to the market," declares Mr. Harper. "The great bulk of eggs is produced during about one-third of the year and rushed to market and into storage, bringing prices down. By controlling the product and putting the surplus into storage, producers' associations are letting their eggs on the market as they are needed throughout the fall and winter months. This is one of the big services which most of the egg co-operatives are rendering."

**Return to Producers**  
"Producers who belong to marketing associations are not, as a rule, getting any more for their products than non-members are," Mr. Harper says. "But members and non-members alike are getting considerably more than they did before the association existed."

The independent dealers are paying on a much narrower margin as a result of the competition aroused by producer marketing. This was especially noticeable with the cooperative associations in Washington, California and Texas. A manager in Washington who had been a private dealer for years said that it might be a good thing if the cooperative ceased to function in order to make all producers realize what it is doing for them."

**Other Essentials.**  
Good management was a very noticeable factor which Mr. Harper noted as a prime necessity of successful poultry and egg marketing associations. Most of the managers whom he met were men who were well grounded in experience and a thorough knowledge of the poultry and egg market.

Associations which are succeeding are well managed and are founded on sound business principles," states Mr. Harper. "There is no 'hot air' or sentiment responsible for their success. They all have a sufficient volume of business to promote wholesale economies and to allow the most efficient handling of the producers' products."

### SPECIAL DAIRYING SCHOOL DURING THE FARMERS' MEETING

Madison—A two-week special dairy school for Wisconsin Swiss cheesemakers will be one of the features of the annual Farmers' week to be conducted at the Wisconsin College of Agriculture early in February, according to college officials. The course will be conducted in cooperation with the Southern Wisconsin Cheesemakers' and Dairymen's association. Feb. 4 to 16 are the dates that have been chosen for the course.

Two weeks of practical and theoretical instruction and a review for experienced cheese makers will be given," according to Prof. J. L. Sammis of the college, who will have charge of the school. "During the past four years 114 Swiss makers have attended this school."

"There will be laboratory exercises and dairy dissections, and the practical methods of clarification and standardization of milk, testing milk, whey, use of hydrometer, rennet tests, the lactometer, the alcohol test, curd and whey test, fermentation test, the inspection of milk at the factory and the production of milk at the farm, making and curing cheese, the use of starters, the faults of cheese and their cause and prevention."

C. M. Gore of the dairy division, U. S. Department of Agriculture, Washington, will be one of the special instructors at the course. Other college faculty members will assist. Other courses of interest to cheesemakers which will be conducted at the college are: Special four days' course for experienced American cheese makers, Jan. 30, 31, Feb. 1 and 2; four day course for creamery buttermakers and ice cream makers, Feb. 3 to 6.

### TOWNSHIPS ELECT BUREAU OFFICERS

Township meetings are being held by the Farm Bureau members for electing officers for the year and delegates to the annual meeting to be held in the Janesville Y. M. C. A. on Jan. 20.

At the meeting of Rock township the following officers were elected: Charles Toubert, chairman; James Lewis, vice chairman; Otto Volking, secretary; Peter Shelly and Charles O'Brien as delegates to serve with the chairman.

Center township elected the following officers: August Sarow, chairman; George Dyfahl, vice chairman; S. L. Crall, secretary, with Herman Weiske and Charles Sarow as delegates to the county convention.

August Sarow, who is managing the Postville Livestock Shipping association, reports that members of the bureau have been shipping a large amount of live stock through the co-operation organization. The only trouble he reports is getting sufficient cars at the right time.

"Save it with flowers," Janesville Floral Co. —Advertisement.

breaking up the strike the inside dairyman started," declared R. K. Overton. "The marketing company is not participating in this strike nor did it start the strike for a milk strike is a bad thing. There has been no effort as yet to hold the milk produced in Rock county off the market."

"However unless the farmers stay organized and stick-together you producers in Rock county are going to be down on a butter-fat basis within the next 12 months. The inner belt farmers thought Wisconsin was not entitled to the Chicago market and could not compete with them, but right now they are finding out the truth of the Chicago market situation."

"I believe in keeping the locals organized," declared H. C. Hemmingsway. "We are going to need it for there are always situations coming up which threaten the market or mean a reduction in price."

**Want Chicago Price**  
The history of milk marketing organization in the Chicago belt is rather complicated and of long history. At one time there was an effort to sign the producers on the Sanitary contract of the Marketing company and outer-belt farmers supported the pool plan. Rock county had more than a thousand signers. The inner

belt producers believing they were secure, refused to join the pool in sufficient numbers to warrant success.

The price of \$2.75 was enjoyed by Wisconsin producers and the organization lost strength for this and various other reason. The farmers were inclined to lose faith in any plans for a pool and there was a sharp quarrel between two rival associations seeking to control the situation. Just before the Chicago strike there was an effort to merge these two associations, prepare a new pool contract and reform a marketing organization. But whether the farmers in

general will forget past history is a question.

While objecting to the 10 cents difference being paid for milk shipped from Harvard and that shipped from Janesville, Clinton and Brooklyn, the producers present at the meeting, numbering around 30 farmers, refused to take sides. They wanted united action or none at all. Consequently in fear of further reductions will seek to bolster up their own local associations to deal with local market problems. No district produces superior milk than does southern Wisconsin, having the best herds and highest producing cattle in the country and dairymen in this district insist on being paid Chicago price, being in easy transporting distance of the city.

"If Bowman gets away with a 10 cent reduction in Wisconsin, all other dealers will follow his price," warned J. J. McCann, Janesville. "I believe in going out and getting a membership that will assure a real voice in what shall be paid for milk in Rock county."

Peter Yale, Milton was elected

president, Austin Sanders, Milton, vice-president, A. E. Lorenzen, secretary and W. H. Hughes, treasurer with J. J. McCann, Robert Conway, S. J. Rieatner, J. B. Sprackling, H. C. Hemmingsway, C. E. Culver and Charles Johnson, Janesville, as directors. J. B. Sprackling, former president, presided during the meeting until the new officers were elected.

**JOHNSON CREEK**  
Johnson's Creek—At the regular meeting of the mutual hose and hook and ladder company, held Wednesday night, the firemen went on record as being opposed to the proposed dance hall ordinance now before the county board. A resolution was adopted petitioning the board not to pass the ordinance. The firemen hold dances occasionally and they realize that if this ordinance were passed the public dance would be killed. The fire boys feel that Johnson Creek is able to handle the dance situation without

regulations made by the county board.

Miss Mabel Strutz visited Lake Mills friends over Sunday.

Mrs. Mildred Junker called at the Edward Baker home Thursday.

Mrs. George Wolf entertained at bridge for Mrs. Oscar King, the guests being Mrs. E. W. Feldschneider, William Stiehm, C. Hubbs, P. Shockey, E. O. Stiehm, R. Woelfter and O. King.

Mr. and Mrs. H. C. Christians left Saturday for California to spend the remainder of the winter.

**LA GRANGE**  
La Grange—Gray Daulton returned to Stout Institute Saturday. Mrs. Fred Bromley visited in Whitewater Wednesday and Thursday. Mr. and Mrs. J. B. Agen and Mrs. Gordon Saunders stopped in Milwaukee Friday. The Ambassador Motor quartet gave a good program here Saturday night, but the severe weather prevented a large attendance. J. J. Jones, Bloom, visited at the Ashley Rhodes home and attended the concert. Mrs. George G. Taylor is ill.

## Taking America Off Its Feet!

Overland Success is the Talk of the Country

The year just ended has been the greatest of all the fifteen years of Overland history. A great year made by great cars—the greatest Overlands ever built. Greatest in looks, power, action, comfort—and money's worth!

Look at the new Overland Champion, for instance. It brings a quality closed car with features and utilities hitherto unheard of within reach of every purse. America's first all-

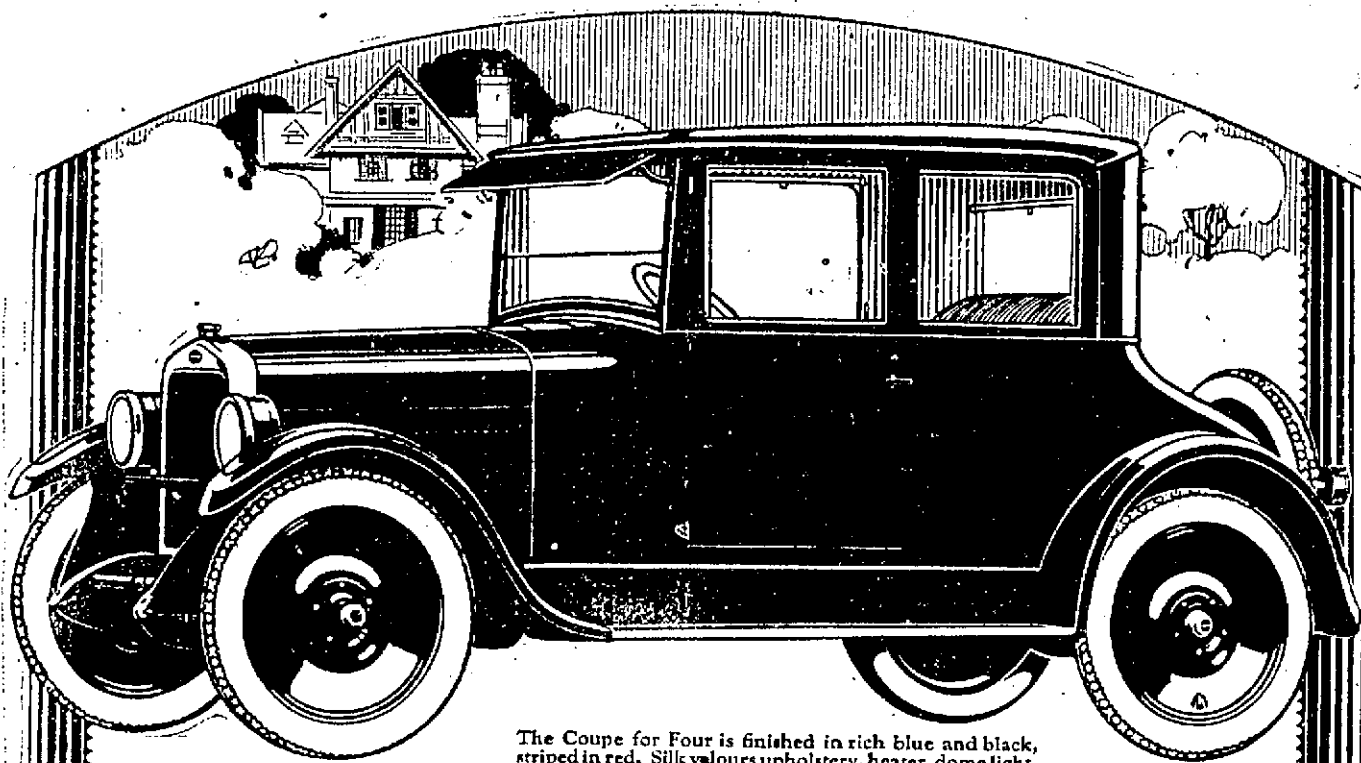

purpose car—conceded to be the most useful motor car on wheels.

The Champion and all Overland models have the bigger Overland engine—brute power with extreme economy. Leaders in economy—leaders on the road—leaders in the many satisfactions they bring to owners. See them. Sit in them! Ask for a sample of their performance.

Phone 4722 19 N. Bluff Street

*Overland*

The Coupe for Four is finished in rich blue and black, striped in red. Silvelours upholstery, heater, dome light, visor, rear view mirror, etc., are standard equipment.

## What Would You Expect to Pay for a Car So Fine?

Here is a new Coupe of rare beauty. It has a Fisher-built body—luxurious in its appointments and complete to the smallest detail.

It has a brand new, L-head, six-cylinder engine—smoother, quieter and more powerful, and carrying a 15,000 mile performance guarantee.

It has Four-wheel Brakes—simple, tried and true—for greater driving security.

Its controls are all centralized on the steering wheel—exclusively new and remarkably convenient.

And, withal, it shows a road performance, under every condition, that amazes the most critical drivers.

What would you expect to pay for this thoroughly fine closed car? Your guess, if based on previous experience or values, will be wrong—for the price is only \$1345 f. o. b. factory.

The Sedan and Business Coupe are just as fine and complete as the Coupe for Four. At \$1395, and \$1195, respectively, f. o. b. factory, their values are just as convincing. Be fair with yourself and your family. See the True Blue Oakland before you buy.

## Popularity of Chevrolet Due to Great Values

Sept. 1, 1923, the R. W. Motor Sales company of Janesville was incorporated with E. C. Wolfram, president, T. D. Roach, vice president and manager, and H. E. Wolfram, secretary and treasurer, as sales and service dealers in Chevrolet cars, with territory in two counties—Rock and Jefferson.

The firm, realizing the rapid rise of Chevrolet to prominence as a leader in sales in the low priced quality car class, began to look for a suitable location to handle adequately their sales and service, and a deal was completed on Oct. 1 for the purchase of the Cadillac building, owned by E. A. Kemmerer, providing them with one of the largest service stations and best display room in the territory. Nov. 1 the R. W. Motor Sales company moved into their new place of business and immediately built up a sales organization with P. G. Vinch as sales manager, and a service department with J. E. Miller, formerly with the Chevrolet Motor company for the past seven years, as their traveling service superintendent.

The popularity of the Chevrolet is attributed to the smart realization

and awakening of the American people of today to the exceptional value of "Economic Transportation" that it provides in a complete line of up-to-date pleasure cars and trucks to suit the purchaser's satisfaction. Equipped with body built by Fisher, the Chevrolet claims to offer the "Lowest priced automobile on the market today, fully equipped."

## LEAVER TO PLAY EDGERTON DANCE

There is another delightful dance on the program at Edgerton for Thursday night, January 10th when Leaver's Harp Orchestra will furnish the music for an old time dance to be held in Academy hall. The same management that has been promoting the recent popular dances held here will be in charge of this dance. Leaver's bunch is noted for their wonderful music and all who were on hand for that last old time dance will be there as well and many more. Bernie Block is to be floor manager and dancing starts promptly at 9 o'clock.

## Dodge Cars Have Enviably Record for Long Service

"It seems like a surprising large number," said William O'Connell, local Dodge Brothers dealer, in commenting on the fact that over 50 per cent of 1,000,000 Dodge Brothers cars are still in service.

"But when you consider the number of faithful 'old timers' to be seen everywhere you go, on the country roads, in cities and villages, you begin to wonder if these Dodge Brothers cars ever wear out. As a matter of fact, I don't believe they do, or at least, I haven't heard of any."

"Just as a matter of curiosity, when this latest Dodge Brothers advertisement came out telling about 90 per cent of one million cars still in service, I interviewed all the junk dealers I could find. They confirmed my opinion absolutely; of all the old cars they take in the Dodge is the least numerous. Some of them have never received one. Others say that most of the few that do come in have figured in accidents or disastrous as to make them worthless."

"It has always been Dodge Brothers' contention that dependable performance more than any other attribute is

important to the owner. Combined with the quality of long life, it enables him to distribute his investment over a period of years and thus reduce his transportation cost to the minimum. Dodge Brothers have always been exceptionally particular in the selection of materials and the quality of workmanship."

## Oldsmobile Goes Better Than Ever

Phil Doherty, of the Bower City Implement company, is sure that the Oldsmobile Six for 1924 will make a record as a fine serviceable car in competition with any vehicle on the market. This is the latest General Motors achievement in high grade cars at a moderate price. It will be seen at the auto show.

## \$80,000 REFUNDED TO STOCK RAISERS

[BY ASSOCIATED PRESS]  
East St. Louis, Ill.—More than \$80,000 in savings on commissions in selling livestock in 1923 will be refunded to participating farmers and stock men in the St. Louis trade territory by the St. Louis Producers' Livestock Commission association, the organization today announced. Last year \$10,000 was refunded.

## Nitscher Gets Agency for the New Maxwell

Emil Nitscher has secured the agency for the Maxwell car and intends to put on an intensive campaign so that everybody will know about the worth of the new Maxwell models for 1924. The Maxwell has been coming to the front fast as an intermediate priced car and the new coupe is another model of fine motor vehicles. Nitscher reports that the inquiries for the Chalmers have never been larger and that the new car put out for 1924 will be even more popular than the 1923 model which broke record for sales.

## Flaherty in Show with Accessories

W. T. Flaherty & Sons, 310 West Milwaukee street, with an exhibit of accessories, will have a fine booth at the show. These will include Douglas Dahlin bearings, Goodyear tires and a generally interesting exhibit to attract the eye of the visitor.

Jan. 12-15, Gazette Annual Review.

## Cadillac Is a Palatial Car

"Palatial" covers for the new Cadillac models for 1924 to be shown at the auto show by Granger-Cadillac company, now located in the new establishment at 208 West Milwaukee street. There will be ample window show room and an exhibit of Cadillac will be carried the year around.

O. Gleason and seven men are in charge of the service department.

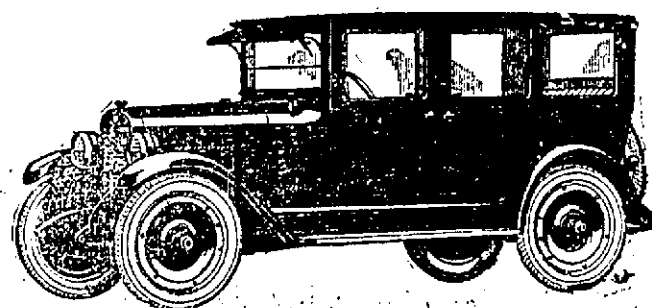

CAR CREW HELD UP  
Duluth — A hold up of a street car conductor and motorman at 57th avenue west and Medina street Monday night netted a bandit about \$50.

Review Claims.—Committee No. 10 of the Rock county board met in the court house Wednesday for reviewing general claims filed with the county.

## Scanlan Will Be in the Big Show

Among exhibits of necessities are those from Scanlan Auto Supply at 3 North Bluff street. Only a little over a year old this auto supply house has moved to an enviable business in all service work and accessories.

# Announcing a New Janesville Agency for THE GOOD MAXWELL

## See Them at the Show January 10-11-12

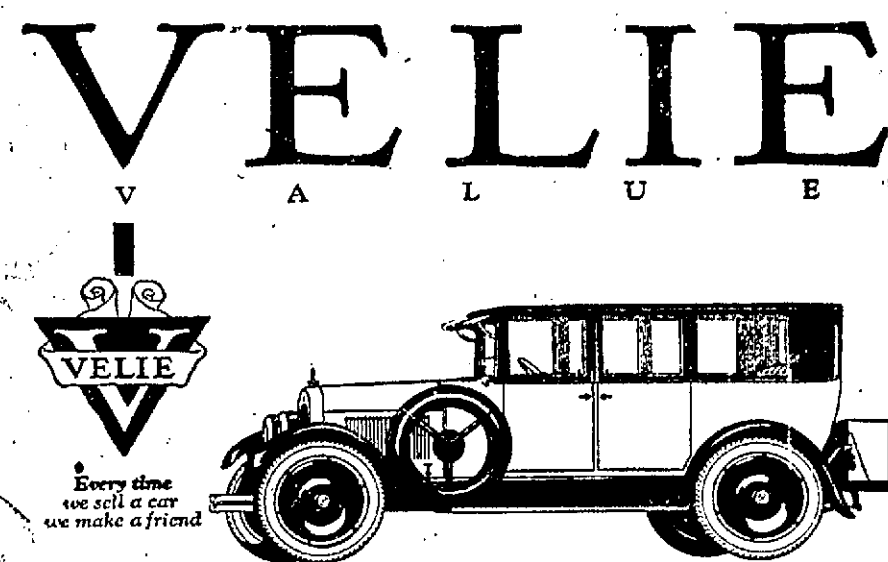

No motor car has ever won so high a place in public regard in such a short time as has been accorded the good Maxwell since the new series was introduced.

The original line of good Maxwells, consisting of the Sedan, Four-Passenger Coupe, Touring Car and Roadster, has been augmented by the Club Coupe, a handsome, convenient, practical enclosed car for two, and a Sport Touring Car and Roadster—these last the first complete cars of the kind in the thousand-dollar field.

Fully to realize, however, that such sound and outstanding value can only be found in the good Maxwell, it is vitally necessary for you to meet face to face and examine by your own standards the impressive quality and unique good looks of these fine cars.
